## INVITATION

Dear Friends,

We are proud to announce that Rome will host GYNITALY: The 17<sup>th</sup> AAGL International Meeting on Minimally Invasive Gynecological Surgery (MIGS) in conjunction with ESGE (European Society for Gynaecological Endoscopy) from May 7 to May 10, 2023, therefore the expected Endometriosis2023 Congress will be part of this global event. Our aim is to spotlight new technologies, new surgical, diagnostic or therapeutic devices that offer the promise of improved patient care.

Engaging and interactive, this three-day event will be unlike any other meeting offering scientific excellence in the fields of Minimally Invasive Surgery in Gynecology. The Congress will bring together many of the world's leading experts providing also a unique opportunity to share the current and future diagnostic and surgical challenges and to discuss novel approaches and standards, facilitating progress towards patient-oriented solutions.

The scientific agenda will include:

- **Pre-congress courses on Ultrasound, Infertility, Endometriosis and Hysteroscopy**
- **Live Surgeries marathon**
- **Keynote lectures**
- **Satellite symposia**
- **Debates with an EVIDENCE BASED EDUCATION**

Main topics will be:

- **Endometriosis**
- **Benign diseases**
- **Oncology**

Focusing on latest developments in Minimally Invasive  
Gynaecologic Surgery:

- **Laparoscopy**
- **Mini-Laparoscopy**
- **New Robotic Platforms**
- **Hysteroscopy**
- **V-NOTES**
- **Laser**
- **Plasma Jet**
- **Radiofrequency and Ultrasounds**

Bringing together world-renowned gynecologists and surgeons, this event is an outstanding opportunity that you can't miss.

See you in the Eternal City!

Mario Malzoni

Mauricio S. Abrão

## **PRE-CONGRESS COURSES:**

### **PG COURSE 1: STEALING SECRETS FROM THE EXPERTS/SURGERY**

Interactive course on surgical strategies and techniques in pelvic and abdominal deep Endometriosis with video demonstrations

*Course Directors: M.S. Abrão, M. Malzoni*

The course aims at improving knowledge crucial for developing proper strategies to surgical approach in DIE.

The program was built thinking to qualified surgeons wishing to extend their practice in this challenging disease.

Prerecorded surgical videos from renowned surgeons will be our instruments to guide participants in developing the ability to translate knowledge and new techniques in working practice.

Interactive discussion during the entire course will stimulate the development of critical approach to evaluate a wide range of common situations reflecting the everyday clinical practice.

#### **Course Objectives:**

After completion of the course participants will be able to:

- Obtain all the information about anatomy and neuroanatomy in the retroperitoneal spaces
- Improve their knowledge about surgical strategies
- Improve their knowledge about new technologies needed to perform safe and efficacy surgery in DIE

**SUNDAY, MAY 7****PRE-CONGRESS COURSES:****PG COURSE 1: STEALING SECRETS FROM THE EXPERTS/SURGERY**

## **PRE-CONGRESS COURSES:**

### **PG COURSE 2: STEALING SECRETS FROM THE EXPERTS/IMAGING**

Interactive course on US and MR in Endometriosis and Oncology with live and pre-recorded demonstration.

*Course Director: A. Di Giovanni*

The course aims at developing knowledge and understanding in performing and interpreting properly US and MR imaging for endometriosis and gynecologic oncology.

The program was built thinking to qualified sonographers and radiologists wishing to extend their practice in benign and malignant gynecologic diseases. Keynote lectures and live and prerecorded US/MRI cases from renowned imaging operators will be our instruments to guide participants in developing the ability to translate knowledge and new techniques in working practice.

Interactive discussion between sonographers, radiologists, pathologists and surgeons during the entire course will stimulate the development of critical approach to evaluate a wide range of common pathologies and situations reflecting the everyday clinical practice.

#### **Course Objectives:**

After completion of the course participants will be able to:

- Develop a systematic approach for proper ultrasonographic evaluation of female pelvis
- Recognize US and MR signs of uterine, adnexal and deep infiltrating endometriosis and oncologic diseases
- Recognize anatomic landmarks crucial for understanding disease's extension
- Offer a first line high quality US examination and understand which cases require more advanced experts' evaluation

## PRE-CONGRESS COURSES:

### **PG COURSE 3: INFERTILITY AND REPRODUCTIVE SURGERY**

*Course Directors: A. Pellicer, F. Ubaldi*

The course intends to give a general overview of the problems found in infertile women with endometriosis, adenomyosis and other pathologies related to infertility. The course describes the pathophysiology, the diagnosis and the management of the endometriosis/ adenomyosis in infertile women together with the surgical approaches of the most common pathologies associated to the infertility.

#### **Course Objectives:**

After completion of the course participants will be able to:

- Understand the pathophysiology of endometriosis and adenomyosis;
- Understand how both entities affect oocyte/embryo quality and endometrial receptivity;
- Understand the therapeutic benefits of surgical approaches in the most common pathologies associated to the infertility.

#### **SESSION I: PATHO-PHYSIOLOGY OF ENDOMETRIOSIS/ADENOMYOSIS**

*Chairs: A. Borini, A. Pellicer*

10.00 am - 10.30 am	The association endometriosis-infertility: What is new?	<i>C. Bulletti</i>
10.30 am - 11.00 am	Oocyte quality in women with endometriosis	<i>M. Mignini Renzini</i>
11.00 am - 11.30 am	The relationship endometriosis-adenomyosis: Same or different entities, association	<i>J. Donnez</i>

#### **SESSION II: DIAGNOSIS, PREVENTION AND ART OUTCOME OF ENDOMETRIOSIS/ADENOMYOSIS**

*Chairs: C. Bulletti, F. Ubaldi*

11.30 pm - 12.00 pm	The diagnosis of adenomyosis	<i>B. Zizolfi</i>
---------------------	------------------------------	-------------------

**SUNDAY, MAY 7**

**PRE-CONGRESS COURSES:**

**PG COURSE 3: INFERTILITY AND REPRODUCTIVE SURGERY**

*Course Directors: A. Pellicer, F. Ubaldi*

12.00 pm - 12.30 pm      Fertility preservation in women with endometriosis before surgery      **M. Cozzolino**

12.30 pm - 01.00 pm      Endometriosis/adenomyosis and ART outcomes      **V. Cela**

01.00 pm - 01.30 pm      Lessons learned from oocyte donation in women with endometriosis and/or Adenomyosis      **A. Borini**

**01.30 pm - 03.00 pm**      **Lunch**

**SESSION III: SURGICAL MANAGEMENT OF PELVIC PATHOLOGIES ASSOCIATED TO THE INFERTILITY**

*Chairs: A. Pellicer, F. Ubaldi*

03.00 pm - 03.40 pm      Surgical management of endometriosis before ART      **E. Zupi**

03.40 pm - 04.20 pm      Uterine surgery in infertile women      **F. Zullo**

04.20 pm - 05.00 pm      Adenomyosis: when is surgical or medical management indicated?      **L. Muzii**

05.00 pm - 05.40 pm      Tubal surgery in infertile women, is still there a role?      **G. Grimbizis**

05.40 pm - 06.10 pm      Can and when reproductive surgery improve ART outcome?      **A. Gargiulo**

06.10 pm      Adjourn

**SUNDAY, MAY 7**

## PRE-CONGRESS COURSES:

### **PG COURSE 4: NEW FRONTIERS IN INTRAUTERINE SURGERY**

*Course Director: U. Catena*

The course intends to provide the necessary knowledge and practical skills to treat simple and complex intrauterine pathologies. You will have the possibility to learn from the best intrauterine surgeons from all over the world, with high level lectures and mentoring in wet & dry lab.

#### **Course Objectives:**

After completion of the course participants will be able to:

- Implement their knowledge in intrauterine surgery
- Standardize their approach to the uterine cavity and the different intrauterine pathologies
- Know the full range of devices for an innovative approach to intrauterine surgery

*Chairs: S. Bettocchi, U. Catena, A. Di Spiezio Sardo*

10.00 am - 10.15 am	Course opening and Welcome to the participants	
<b>10.15 am - 01.00 pm</b>	<b>LECTURES</b>	
10.15 am - 10.35 am	“My hysteroscope is my stethoscope”: best practice for office hysteroscopy	<b>L. Bradley</b>

10.55am - 11.15 am	Role of TRD in the endometrial sampling	<b>G. Bigatti</b>
<b>11.15 am - 11.35 am</b>	<b>Coffee break</b>	
11.35 am - 11.55 am	Is there a role for hysteroscopy in the treatment of adenomyosis?	<b>R. Campo</b>
11.55 am - 12.15 pm	Role of TRD in the treatment of RPOC	<b>U. Catena</b>

**SUNDAY, MAY 7**

**PRE-CONGRESS COURSES:**

**PG COURSE 4: NEW FRONTIERS IN INTRAUTERINE SURGERY**

*Course Director: U. Catena*

12.15 pm - 12.35 pm      Treatment of uterine malformations: what is the evidence? **G. Grimbizis**

12.35 pm - 12.55 pm      Missed abortion: is it time to change the standard treatment? **T. Carugno**

**01.00 pm - 02.00 pm**      **Lunch**

02.00 pm - 04.00 pm      **WET & DRY LAB**  
*Participants will have the possibility to improve their skills in:*

- Standardize approach to diagnostic hysteroscopy
- Office procedures with 5 Fr instruments
- GESEA HYSTT exercises
- Resectoscopy
- Use of TRD (on female genital models, virtual simulators)
- Radiofrequency endometrial ablation

04.00 pm      Closure

**GESEA CERTIFICATION SESSIONS LEVEL 1**

*Chairs: U. Catena, F. Campolo*

10.00 am - 10.30 am      Welcome & Registrations
