

‘Masterclass Hysteroscopy & Ultrasound - Building Bridges’

Thursday April 25, Friday April 26 and Saturday April 27, 2024

ETCA - ZNA Cadix - Antwerp - Belgium

SCIENTIFIC PROGRAMME

Course directors

Bart De Vree **Tjalina Hamerlynck**
Wouter Froyman **Thierry Van Den Bosch**

Course directors - Algerian day

Amal Drizi **Adel Sedrati**

Course directors - Nurses day

Caroline Bell **Veerle Vuylsteke**

Honorary course directors

Bruno van Herendael **Dirk Timmerman**

Speakers, Chairs and ETCA collaborators:

M. Auzin	A. Drizi	F. Van Avermaete
M. Bekaert	W. Froyman	T. Van Den Bosch
C. Bell	T. Hamerlynck	B. van Herendael
C. De Bruyn	A-S Maryns	H. Van Kerrebroeck
R. de Leeuw	C. Rees	D. Van Schoubroeck
B. De Vree	V. Schutyser	H. Van Vliet
K. Dewilde	A. Sedrati	K. Vargas
D. Djokovic	L. Tebache	V. Vuylsteke

Thursday April 25, 2024

Scientific Programme

08:30 Registration and coffee

08:45

Live surgery

(focus on pre-op ultrasound diagnosis, hysteroscopic diagnosis & treatment)

« La journée algérienne »

Nurses day

09:30

Conférences par
A. Drizi - B. De Vree -
A. Sedrati - L. Tebache

- “physiologie et pathophysiologie de l’endomètre – en pratique”

Hysteroscopy:
Historical overview and equipment.
B. van Herendael

Coffee break

11:00

- “polypes/lésions précancéreuses”
- L’entrée difficile: comment surmonter les obstacles du col et de l’isthme utérin?

What are the indications to use a Tissue Removal System
A-S. Maryns

Hysteroscopy – the UK Journey
C. Bell

12:00

Keynote lecture: ‘How to set up a Hysteroscopic Service: a different approach in different countries?’ V. Vuylsteke - ZNA Middelheim/Cadix

12:30 **Lunch kindly sponsored by ISGE & visit to the exhibitors**

14:00

- “malformations utérines”
- “ isthmocèle/grossesse ectopique dans isthmocèle ”
- “myomectomies”
- “rétentions placentaires”

How can we give our equipment the longest life possible?

L. Wauters
Stöpler Belgium

15:00

- Discussion : tous les professeurs

Workshop Hysteroscopy

16:30

Quiz
Clôture

Quiz
Take home messages

Friday April 26, 2024

Scientific Programme

08:30 Registration - coffee

09:00 **Live surgery**

(focus on pre-op ultrasound diagnosis, diagnostic hysteroscopy & treatment)

09:45 Welcome - Introduction
B. De Vree

Session **ENDOMETRIUM**

10:00 Does an empty uterine cavity mean a normal hysteroscopy?
A. Drizi – Algiers/Algeria

10:20 Case Reports 'endometrial pathology/premalignant - malignant lesions'
K. Dewilde - C. De Bruyn

10:30 Confrontation: diagnosis in the patient with abnormal uterine bleeding
(premalignant - malignant endometrial lesions)
T. Van Den Bosch: ultrasound is enough as diagnostic tool
B. De Vree: office hysteroscopy = one-stop diagnosis & treatment

Session **NICHE**

11:00 Case reports 'niche' (and 'cesarean scar pregnancy')
M. Auzin - A. Sedrati

11:10 Which niches do we have to treat and through which surgical route -
let's not forget the vaginal route?
H. Van Kerrebroeck

11:30 Discussion: all speakers

11:40 **Keynote lecture:** Why Ultrasound is an Essential Tool also for Surgeons?
D. Djokovic – Lisbon/Portugal

12:00 **Lunch - visit to the exhibitors & sponsors**

13:30

Karl Storz session

How to choose the Correct Equipment to Optimise your Operative Hysteroscopy?

B. van Herendael

14:00 - 17:00 Workshops Hysteroscopy & Ultrasound

GROUP A: Workshop Hysteroscopy

14:00 - 17:00 Workshop (rotation through a series of 10 stations using nearly live hysteroscopy models and a representative number of hysteroscopic equipment diagnostic and operative including tissue removal systems)

GROUP B : Workshop Ultrasound

14:00 - 17:00 Workshop (rotation through several 'nearly live' cases/exercises using Volutracer O.P.U.S. transvaginal simulators)

19:00

Faculty Dinner

Saturday April 27, 2024

Scientific Programme

08:30

Registration - coffee

09:00

Benetec - Samsung session

Live ultrasound cases - W. Froyman, D. Djokovic, T. Van Den Bosch, D. Van Schoubroeck

Session ADENOMYOSIS – ADENOMYOMA

09:45

Case reports 'fibroids – adenomyosis'
F. Van Avermaete - D. Djokovic

10:00

Diagnosis – diff diagnosis of adenomyosis/adenomyoma using MUSA terminology - W. Froyman

10:15

MRI – a superior tool in diagnosing adenomyosis?
C. Rees – Eindhoven/The Netherlands

10:30

Adenomyosis: can hysteroscopy be of added value?
V. Schutyser

Session **RPOC** (retained products of conception)

10:45

Tissue Removal Systems are superior in the treatment of RPOC
T. Hamerlynck

11:05

RPOC – how to proceed when we don't have a Tissue Removal System available?
A. Sedrati - Constantine/Algeria

11:25

Discussion: all speakers

11:40

Keynote lecture: Choosing the right treatment in case of cesarean scar pregnancy – how can a new classification guide us?
R. de Leeuw – Amsterdam/The Netherlands

12:00

Lunch – visit to the exhibitors & sponsors

13:30 – 16:30 Workshops Hysteroscopy & Ultrasound

GROUP B: Workshop Hysteroscopy

13:30 – 16:30 Workshop (rotation through a series of 10 stations using nearly live hysteroscopy models and a representative number of hysteroscopic equipment diagnostic and operative including tissue removal systems)

GROUP A : Workshop Ultrasound

13:30 – 16:30 Workshop (rotation through several 'nearly live' cases/exercises using Volutracer O.P.U.S. transvaginal simulators)

Practical information

Location :

Endoscopic Training Centre Antwerp – ZNA Cadix – Kempenstraat 100 – B-2030 Antwerp, Belgium

Registration Fee:

	EUR
Gynaecologist - MD Ob/Gyn	350
ISGE or VVOG member	290
Registrars - limited number - proof of residency required	230
Nurse	230

How to register?

- Send an email to karlien@etca.be
- Final registration upon receipt of payment to account Gyntech BE06 0012 9696 0122, mentioning your name in description

Maximum Participants: 50 (first pay = first serve)

Cancellation:

- Cancellations up to Wednesday, April 17, 2024: Refund after deducting 50 EUR administrative fee
- Cancellations after Wednesday, April 17, 2024: No refund
